DUKHAN
MAXIM

WEB DEVELOPER

ABOUT ME

I live in Ukraine, in the city of Kyiv. I was involved in football, but due to certain circumstances I ended my career and began to learn different programming languages. Now I am learning languages such as HTML, CSS, Java-Script, PHP. I actively practice working with a CMS system similar to WordPress using Bootstrap. I just started making my way in the IT field. The main motivator for me is you and your ideas, which I will happily turn into reality.
